## LITERATURA

**Moggach, Deborah**

**Heartbreak hotel**

When retired actor Buffy decides to up sticks from London and move to rural Wales, he has no idea what he is letting himself in for.

In possession of a run-down B&B that leans more towards the shabby than the chic and is miles from nowhere, he realises he needs to fill the beds – and fast.

Enter a motley collection of guests: Harold, whose wife has run off with a younger woman; Amy, who's been unexpectedly dumped by her (not-so) weedy boyfriend and Andy, the hypochondriac postman whose girlfriend is much too much for him to handle.

But under Buffy's watchful eye, this disparate group of strangers find they have more in common than perhaps they first thought.

As a deputy in the North Carolina town of New Bern, Miles Ryan not only grieves for Missy, but also longs to bring the unknown driver to justice. Then Miles meets Sarah Andrews. The second grade teacher of his son, Jonah, Sarah had left Baltimore after a difficult divorce to start over in the gentler surroundings of New Bern. Perhaps it's her own emotional wounds that make her sensitive to the hurt she first sees in Jonah's eyes, and then his father's.

Tentatively, Sarah and Miles reach out to each other. Soon they are both laughing for the first time in years . . . and falling in love. Neither will be able to guess how closely linked they are to a shocking secret—one that will force them to question everything they ever believed in . . . and make a heartbreakin choice that will change their lives forever.

Yet headstrong, independent Faythe resents her power, heading to college to escape her family and her overprotective ex, Marc. That is until a stray – a dangerous werecat without a pride or territory – catches her scent. With two werecat girls already missing, Faythe is summoned home for her own protection. The Shifters 1 : Pride**

I'm on trial for my life. Falsey accused of infecting my human ex-boyfriend—and killing him to cover up the crime. Infecting a human is one of three capital offenses recognized by the Pride—along with murder and disclosure of our existence to a human. I'm two for three. A goner.

Now we've discovered a rogue stray terrorizing the mountainside, hunting a wild teenage tabbycat. It's up to us to find and stop him before a human discovers us. With my lover Marc's help, I think I can protect the vulnerable girl from both the ambitious rogue and the scheming of the territorial council.
